Volume 272, no. 1

Guidelines for the submission of manuscripts v

An alternative interpretation of population vector rotation in macaque motor cortex
P. Cisek, S.H. Scott (Canada) 1

Bcl-x_L inhibits apoptosis and necrosis produced by Alzheimer's β-amyloid$_{1-40}$ peptide in PC12 cells
J. Tan, T. Town, A. Placzek, A. Kundtz, H. Yu, M. Mullan (USA) 5

Expression of the prion protein in the rat forebrain – an immunohistochemical study
S. Verghese–Nikolakaki, H. Michaloudi, M. Polymenidou, M.H. Groschup, G.C. Papadopoulos, T. Sklaviadis (Greece, Germany) 9

Age-related augmentation of the dehydration-induced increase in the supraoptic nitric oxide synthase activity in rats
S. Soinila, M. Sadeniemi, A. Lumme, S. Vanhatalo (Finland) 13

Different forms of human odor memory: a developmental study
J.P. Lehrner, P. Walla, M. Laska, L. Deecke (Austria, Germany) 17

Comparison of the effects of cholinesterase inhibitors on [^{3}H]MK-801 binding in rat cerebral cortex
X.-D. Wang, X.-Q. Chen, H.-H. Yang, G.-Y. Hu (China) 21

A bi-functional activator/repressor element required for transcriptional activity of the human UCH-L1 gene assembles a neuron-specific protein: single-strand DNA complex
A.R. Trowern, D.A. Mann (UK) 25

Differential effects of overt, covert and replayed speech on vowel-evoked responses of the human auditory cortex
J. Numminen, G. Curio (Finland, Germany) 29

Plasticity of cortical hand muscle representation in patients with hemifacial spasm
J. Liepert, C. Oreja-Guevara, L.G. Cohen, M. Tegenthoff, M. Hallett, J.-P. Malin (Germany, USA) 33

Deficient motor control in children with tic disorder: evidence from transcranial magnetic stimulation
G.H. Moll, S. Wischer, H. Heinrich, F. Tergau, W. Paulus, A. Rothenberger (Germany) 37

Endogenous nerve growth factor increases the sensitivity to bradykinin in small dorsal root ganglion neurons of adjuvant inflamed rats
M. Kasai, K. Mizumura (Japan) 41

Regulation of *NeuroD* expression by activation of the protein kinase-C pathway in Y79 human retinoblastoma cells
T. Noma, Y.-S. Yoon, Y. Yamashiro, K. Fujisawa, A. Nakazawa (Japan) 45

Cortical field potentials associated with audio-initiated vocalization in monkeys
H. Gemba, S.-i. Kyuhou, R.-i. Matsuzaki, Y. Amino (Japan) 49

Oxidative damage to mitochondrial DNA in Huntington's disease parietal cortex
M.C. Polidori, P. Mecocci, S.E. Browne, U. Senin, M.F. Beal (Italy, USA) 53

Immunohistochemical detection of the lipid peroxidation product 4-hydroxynonenal after experimental brain injury in the rat
D. Zhang, H.S. Dhillon, M.P. Mattson, D.M. Yurek, R.M. Prasad (USA) 57

Practicable recovery of plasmids carrying cDNAs encoding anti-apoptotic factors that had been introduced by particle bombardment into 5-week old rat hippocampal slices
S. Asoh, T. Mori, S. Ohta (Japan) 62

Nimodipine potentiates the light-induced suppression of melatonin
S. Benloucif, G.L. Bauer, M.L. Dubocovich, S.I. Finkel, P.C. Zee (USA) 67

Erratum 72

Volume 272, no. 2

Unilateral muscimol inactivations of the interstitial nucleus of Cajal in the alert rhesus monkey do not elicit seesaw nystagmus
H. Rambold, C. Helmchen, U. Büttner (Germany) 75

Morphine tolerance and transcription factor expression in mouse spinal cord tissue
X. Li, J.D. Clark (USA) 79

Lack of allelic imbalance in APOE ε3/4 brain mRNA expression in Alzheimer's disease
W.B. Growdon, B.S. Cheung, B.T. Hyman, G.W. Rebeck (USA) 83

Calcium increase in mouse skeletal muscles by triparanol: a drug to induce myotonic dystrophy-like clinical manifestations
M.P. Takahashi, T. Kimura, T. Yanagihara, S. Sakoda (Japan) 87
Phenidone attenuates oxygen/glucose deprivation-induced neurotoxicity by antioxidant and antiapoptotic action in mouse cortical cultures
M.B. Wie, Y.J. Cho, W.K. Jhoo, H.C. Kim (South Korea) 91
In vivo activation and in situ BDNF-stimulated nuclear translocation of mitogen-activated/extracellular signal-regulated protein kinase is inhibited by ethanol in the developing rat hippocampus
M.I. Davis, D. Szarowski, J.N. Turner, R.A. Morrisett, W. Shain (USA) 95
Decrease of nitric oxide synthase in the cerebrocortex of streptozotocin-induced diabetic rats
W.-J. Yu, S.-W. Juang, W.-T. Chin, T.C. Chi, T.-J. Wu, J.-T. Cheng (Taiwan) 99
Trks and p75 genes are differentially expressed in the inner ear of human embryos. What may Trks and p75 null mutant mice suggest on human development?
J.A. Vega, I. San José, R. Cabo, S. Rodriguez, J. Represa (Spain, USA) 103
Alpha motoneurons are present in normal numbers but with reduced soma size in neurotrophin-3 knockout mice
A. Woolley, P. Sheard, K. Dodds, M. Duxson (New Zealand) 107
Opioid peptide mRNA expression in the colon of the rat
C. Porcher, D. Bagnol, S.J. Watson (France, USA) 111
The expressed localization of rat putative pheromone receptors
S. Takigami, T. Osada, J. Yoshida-Matsuoka, M. Matsuoka, Y. Mori, M. Ichikawa (Japan) 115
Interleukin-1β causes a biphasic response in neurons of rat major pelvic ganglia
T. Akasu, M. Tsurusaki (Japan) 119
Regulation of capacitative Ca^{2+} entry by tyrosine phosphorylation in the neural retina of chick embryo
W.-L. Zhou, M. Sugioka, Y. Sakaki, M. Yamashita (Japan) 123
Exogenous microglia enter the brain and migrate into ischaemic hippocampal lesions
F. Imai, M. Sawada, H. Suzuki, B.V. Zlokovic, J. Kojima, S. Kuno, T. Nagatsu, T. Nitatori, Y. Uchiyama, T. Kanno (Japan, USA) 127
Decrease in phantom limb pain associated with prosthesis-induced increased use of an amputation stump in humans
T. Weiss, W.H.R. Miltner, T. Adler, L. Brückner, E. Taub (Germany, USA) 131
Pulvinar participates in synchronizing neural assemblies in the visual cortex, in cats
S. Shumikhina, S. Molotchnikoff (Canada) 135
Exclusion of dominant mutations within the FTDP-17 locus on chromosome 17 for Parkinson's disease
S. Zareparsi, K. Wirdefeldt, C.E. Burgess, J. Nutt, P. Kramer, M. Schalling, H. Payami (USA, Sweden) 140

Volume 272, no. 3

The effect of riluzole and mannitol on cerebral oedema after cryogenic injury in the mouse
J. Pratt, C. Archambaud, G.A. Böhme, M. Roux, J. Rataud, A. Imperato, J.-M. Stutzmann (France) 143
Calcium entry initiates processes that restore a barrier to dye entry in severed earthworm giant axons
A.R. Blanchette, M.L. Ballinger, H.M. Fishman, G.D. Bittner (USA) 147
Organization of the basal forebrain projection to the thalamus in rats
C. Kolmac, J. Mitrofanis (Australia) 151
Lack of independent associations of apolipoprotein E promoter and intron 1 polymorphisms with Alzheimer's disease
G.W. Rebeck, B.S. Cheung, W.B. Growdon, A. Deng, P. Akuthota, J. Locascio, S.M. Greenberg, B.T. Hyman (USA) 155
Intracerebroventricular administration of copper-zinc superoxide dismutase inhibits pulsatile luteinizing hormone secretion in ovariectomized ewes
K.H. Al-Gubory, A. Locatelli (France) 159
Comparable effects of flickering and steady patterns of light adaptation on photomechanical responses of cones in amphibian (*Xenopus laevis*) retina
A.R. Angotzi, J. Hirano, S. Haamedi, R. Murgia, S. Vallerga, M.B.A. Djamgoz (UK, Italy) 163
Co-localization of GABA with nicotinamide adenine dinucleotide phosphate-dependent diaphorase in neurones in the dorsolateral periaqueductal grey matter of the rat
T.A. Lovick, N.L. Paul (UK) 167
Early social isolation decreases the expression of calbindin D-28k in rat cerebellar Purkinje cells
R. Pascual, E. Verdú, A. Valero, X. Navarro (Spain) 171
In rats, odor-induced Fos in the olfactory pathways depends on the phase of the circadian clock
S. Amir, S. Cain, J. Sullivan, B. Robinson, J. Stewart (Canada) 175
Dopamine and noradrenaline release in the prefrontal cortex of rats during classical aversive and appetitive conditioning to a contextual stimulus: interference by novelty effects
M.G.P. Feenstra, G. Teske, M.H.A. Botterblom, J.P.C. De Bruin (The Netherlands) 179
Orphanin FQ reduces morphine-induced dopamine release in the nucleus accumbens: a microdialysis study in rats
A. Di Giannuario, S. Pieretti, A. Catalani, A. Loizzo (Italy) 183
Protein kinase C potentiation of currents from mouse ζ1/ε2 NMDA receptors expressed in *Xenopus* oocytes depends on f-actin/g-actin cycling
D.A. Wagner, J.P. Leonard (USA) 187
Improved survival of injured sciatic nerve Schwann cells in mice lacking the p75 receptor
C.C. Ferri, M.A. Bisby (Canada) 191

Lactate reduces amino acid release and fuels recovery of function in the ischemic brain
J.W. Phillis, D. Song, L.L. Guyot, M.H. O'Regan (USA) 195
Peripheral nerve conduction recorded by a micro gradiometer system (micro-SQUID) in humans
M. Hoshiyama, R. Kakigi, O. Nagata (Japan) 199
Effect of thiol modification on brain mitochondrial complex I activity
S. Balijepalli, J. Annepu, M.R. Boyd, V. Ravindranath (India, USA) 203
Induction of ischemic tolerance in rat cortical neurons by 3-nitropropionic acid: chemical preconditioning
M. Weih, A. Bergk, N.K. Isaev, K. Ruscher, D. Megow, M. Riepe, A. Meisel, I.V. Victorov, U. Dirnagi (Germany, Russian Federation) 207
Primary afferent fibers of the pelvic nerve terminate in the gracile nucleus of the rat
Y.-Q. Ding, J. Shi, D.-S. Wang, J.-Q. Xu, J.-L. Li, G. Ju (People's Republic of China) 211
